Dashboard Overview

Once logged in, users are greeted with a customizable dashboard that provides an at-a-glance view

of critical information:

- Inventory Levels: Visual indicators of stock status.
- Pending Orders: Items awaiting procurement.
- Alerts & Notifications: Critical updates such as expiring medications or recall notices.
- Analytics Widgets: Quick insights into medication usage, cost trends, and compliance metrics.

The guide recommends customizing the dashboard according to individual or departmental needs for efficiency.

Core Functionalities in Detail

Inventory Management

Real-Time Tracking

Star Navigator offers real-time visibility into medication stock levels, enabling immediate action to replenish supplies or prevent shortages. Users can:

- View detailed inventory data, including lot numbers, expiration dates, and storage locations.
- Set thresholds for automatic alerts when stock drops below predefined levels.
- Receive notifications for upcoming expirations to facilitate timely disposal or usage.

Automated Replenishment

The platform supports automated ordering processes based on usage patterns and predefined reorder points. The guide instructs users on configuring:

- Reorder points and quantities tailored to each medication.
- Suppliers and preferred vendors for seamless procurement.
- Approval workflows if necessary, ensuring compliance with organizational policies.

Medication Management and Data Entry

Accurate data entry is crucial for maintaining system integrity. The user guide offers step-by-step procedures for:

- Adding new medications into the system, including entering detailed information such as strength, form, and manufacturer.
- Updating medication information, especially when formulations or packaging change.
- Recording stock movements, such as receiving, transfers, and disposals.

Patient Safety and Compliance

Star Navigator includes features to support regulatory compliance and patient safety initiatives:

- Barcoding Integration: Ensures accurate medication dispensing and administration.
- Alert Systems: Flag potential drug interactions or contraindications based on patient profiles.
- Expiration Tracking: Prevents usage of expired medications, reducing liability.

The guide emphasizes regular audits and adherence to best practices to maximize safety benefits.

Advanced Features and Reporting

Analytics and Data Reporting

The platform provides sophisticated analytics tools to support operational decisions:

- Usage reports highlighting high-turnover medications.
- Cost analysis to identify savings opportunities.
- Compliance reports to prepare for inspections and audits.

The user guide details how to generate, interpret, and export these reports, empowering pharmacy teams with actionable insights.

Customization and Settings

Users can personalize various system settings:

- Notification preferences for alerts and reminders.
- User interface themes and layout.
- Access permissions for different staff members.

Proper configuration aligns the platform with organizational workflows and security policies.

Troubleshooting and Support

The user guide also addresses common challenges users might encounter, such as:

- Login issues and password resets.
- Discrepancies in inventory data.
- System performance concerns.

For unresolved problems, the guide directs users to contact McKesson support, providing contact details and escalation procedures.

Best Practices for Maximizing the Use of Star Navigator

To fully benefit from the platform, the guide recommends the following:

- Regularly update medication and inventory data.
- Train staff thoroughly on system functionalities.
- Schedule periodic audits to ensure data accuracy.
- Leverage analytics to identify trends and improve procurement strategies.
- Stay updated with system upgrades and new features announced by McKesson.
